

**Quickcheck** is locally operated, servicing Bundaberg, Hervey Bay, Maryborough, Childers and the Wide Bay & Burnett.

**We are your local electricians and smoke alarm specialists!**

Since 2007, Quickcheck has specialised in smoke alarm services. Our services are undertaken by a team of fully trained, licensed and experienced electricians!

**NEW SMOKE ALARM LAWS**

Queensland properties sold or rented must comply with the new smoke alarm laws now!

Sale properties are required to have the smoke alarms upgraded prior to settlement.

The new smoke alarm standards will apply to **all** Queensland property owners and properties must be upgraded to comply before 2027.

**Beat the rush and avoid price increases as the deadline approaches.  
Book your upgrade now!**

**What is required?**

The legislation requires property owners to ensure that smoke alarms are:

- ✔ Installed in every bedroom, every hallway servicing bedrooms and every storey not containing bedrooms in the most likely path of travel to exit the dwelling.
- ✔ Interconnected to every other smoke alarm in the dwelling.
- ✔ Photoelectric type only and comply with Australian Standards (AS3786:2014).
- ✔ Powered by an enduring power source (*either hard-wired or contain a sealed battery that is capable of powering the smoke alarm for a minimum of 10 years from the date of manufacture*).
- ✔ Existing or previous 240 volt smoke alarms *must* be replaced with hardwired smoke alarms.

**Do I need to upgrade my smoke alarms?**

**Smoke Alarm Upgrade Checklist**

- Are my smoke alarms less than 10 years old?
- Are my smoke alarms functioning?
- Are my smoke alarms interconnected (do they all activate together)?
- Do I have smoke alarms in each bedroom (as well as other locations such as hallways)?
- Do I have smoke alarms on each level or storey of my home?

**Contact Quickcheck today to arrange your smoke alarm upgrade if you have answered NO to any of the above questions.**

**Quickcheck** is your local smoke alarm specialist. We will ensure that your property meets with the new smoke alarm requirements.

**What do I do next?**

**Contact Quickcheck and book your upgrade**

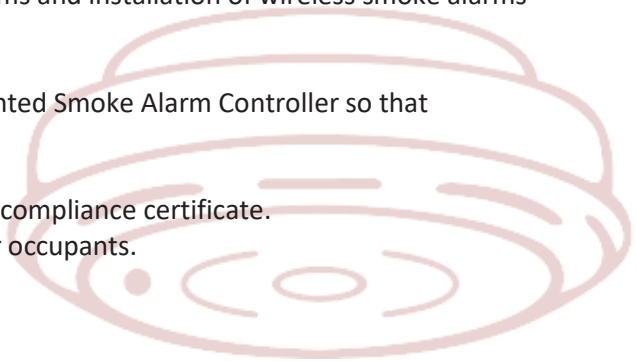

**This offer is limited. To be eligible, book your upgrade by 31 January 2023!**

**Why use Quickcheck?**

- ✓ We are your local electricians!
- ✓ Unlike most electricians, we are also smoke alarm specialists.
- ✓ We get it right the first time! We guarantee our work.
- ✓ We guarantee that your property will comply with the new smoke alarm requirements.
- ✓ We are warranty agents for Red and Emerald smoke alarms! Unlike interstate or Brisbane-based companies, our electricians are based locally.
- ✓ We can be easily contacted for warranty replacements, at no additional cost to you!

**Our smoke alarm upgrade service includes:**

- ✓ The installation of photoelectric smoke alarms (AS3786:2014).
- ✓ The replacement of existing 240 volt smoke alarms and installation of wireless smoke alarms in all other locations.
- ✓ The interconnection of all smoke alarms.
- ✓ The optional installation of a wireless, wall mounted Smoke Alarm Controller so that occupants can instantly deal with false alarms.
- ✓ All materials and labour.
- ✓ A smoke alarm compliance report and electrical compliance certificate.
- ✓ Free "instruction sheets" and on-site training for occupants.
