

Protect your family

with smoke alarms from Quickcheck

Did you know existing smoke alarms manufactured more than 10 years ago are not compliant with Queensland regulations?

Most fatal fires happen at night when people are sleeping. Protect your family and your home by detecting fires early with the help of our latest generation, fully compliant smoke alarms.

It's the law! Is your home safe and compliant?

If your home is not compliant with the latest smoke alarm regulations, your home may not be covered by your insurance.

How can I tell if I need to change my smoke alarms?

Are my smoke alarms less than 10 years old?

Are my smoke alarms working?

Are my smoke alarms interconnected (do they all activate together)?

Do I have smoke alarms in each bedroom and in each connecting hallway?

Do I have smoke alarms on each level of my home?

Contact us today to upgrade your smoke alarm system if you have answered NO to any of the above questions!

Why do I need new smoke alarms?

*Photoelectric alarms are government-approved
They detect smoke using a light source - which is fast and effective
They are radiation free.*

*Ionisation alarms are not compliant with the new legislation
They detect smoke using a flow of current
They use radioactive material to achieve this.*

Get your new smoke alarms installed **today!**

WHY US?
